

Introducing...

Universal Power Cube™!

The Universal Power Cube offers a two-in-one footprint. The bottom mounting surface contains both the Hub City bolt pattern, as well as the bolt pattern known in the industry as "generic", which allows this unit to be mounted in place of most major brand worm gear drives.

- Addition of 240 series (2-3/8" CD)
- Up to 30% increase in mechanical power ratings
- Increased thermal capacity
- Increased efficiency
- Meets or exceeds new industry ratings
- Offers Hub City and "generic" bolt mounting patterns on bottom surface
- Eliminates need for generic base plates
- Smooth design for enhanced washdown characteristics
- Viton seals
- Three lube options: 600W, synthetic, polyglycol, NO thermal limitations when specified with premium polyglycol lubricant

Universal Mounting Pattern

SIDE MOUNT KITS

NOTE: Side mount kits are intended to be attached on the side opposite of the pipe plugs and cover of a hollow bore unit, models "XX2" or "XX5" as shown. Customer is required to specify the style of the gearbox when ordering to accomplish this. Models "XX3" and "XX6" include bracket kit as shown (also see model availability chart below).
